Review of AKL:A Units 2 and 3

If you say the right answer, go to first base. If you say the whole sentence exactly as it is here, go to an extra base. The number after the sentence is the number of extra bases; so, if you're on first base and you get "2" extra bases, go to third base.

Catch the Error. If there is an error, correct the error. If there is no error, just say there is no error.
